MIRESH SONKAMBLE

1397, Gazdar Ct, Santa Clara, CA, 95051 | +1 (443) 756 5166 | mireshsonkamble03@gmail.com

Professional Summary

- Highly skilled and results-driven Full Stack Developer with over 6 years of hands-on experience in developing cutting-edge user interface applications.
- Proven expertise in integrating scalable solutions and employing best practices in front-end and full-stack development.
- Proficient in a wide range of technologies including HTML, CSS, JavaScript, AngularJS, Node.js, and MongoDB.
- Adept at designing responsive and intuitive user interfaces that adhere to web standards and accessibility guidelines.
- Passionate about solving complex problems and driving innovation in web development.
- Committed to continuous learning and staying updated with the latest industry trends and technologies.
- Known for delivering high-quality solutions on time and exceeding client expectations.
- Strong leadership qualities demonstrated through mentoring junior developers, conducting code reviews, and providing technical guidance.

Skills

- **Methodology:** SDLC, Agile, Waterfall, Scrum
- **Programming Languages:** C++, SQL, Python, Java, JavaScript
- **Frameworks:** Django, Flask, React, Redux, Angular, Django Rest, Spring, Hibernate
- **Web Technologies:** HTML, CSS, JavaScript, Bootstrap, Jinja, TypeScript, jQuery, Ajax, JSON, XML, Linux Shell Scripts
- **Version Control:** Git, GitHub, GitLab
- **Databases:** MySQL, PostgreSQL, Oracle, MS Access, SQL Server, SQLite, MongoDB, Redis
- **APIs and Web Services:** RESTful, SOAP
- **Tools & IDE:** Microsoft Visual Code, Eclipse, NetBeans IDE, JMeter, Cucumber, AWS Cloud, Jenkins, BitBucket, FileZilla, MongoDB, Selenium, Postman, Jira, RestAssured, Splunk
- **Libraries:** MEAN Stack, Java-Selenium, TestNG, Maven, Cucumber BDD, Cypress, Postman Automation
- **DevOps:** Docker, Kubernetes, AWS, GCP, Azure, Heroku
- **Testing:** Unit Testing (JUnit), Pytest, Pylint, Test Automation (Selenium), Mockito, SonarQube, Jenkins
- **Other:** Responsive Design, Performance Optimization, Security Best Practices
- **Operating Systems:** Windows, Linux, Mac

Work History

06/2023 to Current

Full Stack Software Developer
Glorium Technologies – MD, USA

- Developed and maintained front-end and back-end components of web applications, utilizing JavaScript, HTML, CSS, and Java technologies
- Designed RESTful APIs to facilitate communication between different system components and external services
- Conducted performance profiling and optimization to enhance application performance and scalability
- Spearheaded performance testing and load testing initiatives, resulting in significant improvements in application scalability and response times
- Managed end-to-end software development lifecycle, from initial concept to deployment and maintenance, using Agile methodologies
- Worked closely with QA engineers to develop automated test suites and ensure the quality of software releases
- Collaborated with cross-functional teams to troubleshoot issues, implement new features, and address customer feedback
- Collaborated with stakeholders to define project requirements, prioritize tasks, and deliver high-quality software solutions within tight deadlines.

Full Stack Developer   07/2020 to 07/2022
KPIT Business Solution Limited – MH, India

- Developed highly responsive and browser-compatible web UIs using HTML5, CSS3, and JavaScript frameworks
- Expertise in MEAN stack development, implementing RESTful APIs, and optimizing website performance
- Designed event handling models and custom CSS for enhanced user experiences
- Utilized CSS preprocessors like LESS and SASS, alongside JavaScript task runners like Grunt
- Administered deployment and configuration of applications on production servers
- Automated testing processes using Selenium for web application testing
- Ensured compliance with web standards and accessibility guidelines
- Proficient in version control using Git, JIRA, and Jenkins

- Implemented Agile/Scrum and Waterfall methodologies for software development
- Conducted code reviews and provided technical guidance to junior developers.

- Implemented Agile/Scrum and Waterfall methodologies for software development
- Conducted code reviews and provided technical guidance to junior developers.

Software Engineer   07/2019 to 06/2020
Magna Info Technologies – MH, India
- Designed and developed user-friendly interfaces using HTML5, CSS/CSS3, and JavaScript frameworks
- Created single-page web applications with AngularJS and integrated RESTful web services
- Utilized Bootstrap and Angular UI for enhanced user interaction
- Implemented responsive web design and mobile-friendly interfaces
- Collaborated with backend developers using Node.js for seamless integration
- Conducted unit testing using Jasmine and Karma
- Optimized front-end code for performance and scalability
- Mentored team members on best practices and emerging technologies
- Assisted users in developing automation functions using Selenium and Appium
- Interacted with the development team to collect technical requirements and provided timely solutions.

Technology Analyst   11/2016 to 06/2019
Advanced – India
- Implemented Agile software development practices for designing and developing applications
- Developed custom CSS styles using LESS compiler and incorporated dynamic features
- Designed SPA interfaces with Angular.js and maintained W3C standards
- Utilized AJAX and JSON for asynchronous data fetching
- Developed RESTful web services and integrated with front-end applications
- Implemented authentication systems using Passport.js
- Contributed to the architecture and design decisions of web applications
- Conducted front-end code testing using TDD techniques
- Coordinated EDI, Claim Auto Adjudication, and Authorization processes

- Conducted testing pre- and post-deployment, including end-to-end testing and sanity testing with positive and negative flow
- Collaborated with cross-functional teams for issue resolution and regression testing.

Education

Master of Science: Software Engineering   05/2024
University of Maryland - Baltimore, US

Bachelor of Engineering: Electronics And Computer Engineering   06/2016
University of Mumbai - India
